

15th Annual MassPRA Conference
“Harnessing the Power of Relationships:
The Foundation of Psychiatric Rehabilitation”

Wednesday October 25, 2017
Pre-registration not required

SESSION ONE WORKSHOPS
10:45am - 12:15pm

Impact of Employment on Health and Wellness for People with Psychiatric Conditions Phoebe Goodman, Vinfen Corp

This workshop will focus on how employment impacts the health and general well-being of people with psychiatric conditions. Several studies have shown that employment positively impacts people's health and general well-being. People who are gainfully employed experience improved physical and mental health, as well as a sense of belonging in their community. The social and financial aspects of employment are not to be ignored as significant factors in one's well-being. Additionally, the role that poverty plays in the lives of many people is significant in determining one's well-being and health.

Deaf Respite: Why Understanding Us Through The Lens Of Diversity And Cultural Competence Matters Brittney Kleinemas, MSW, LCSW, Jena Kohashi, MA, MHC

The Advocates Deaf Respite program is an original model that is Deaf run and Deaf staffed. Presenters will describe the challenges and successes in relationship-building with Deaf persons supported.

Integrating Shared & Supportive Decision Making in Psychiatric Rehabilitation Practice Melinda Randall, M.D., Brien Center, Jessica Bourassa, Brien Center, Rose Marie Karparis, Roe Karparis & Associates Consultation and Training, Gayle Markland, Brien Center, Andrea Stone M.D., Western MA DMH

While Shared Decision Making occurs between psychiatric provider and person with psychiatric disability, Supportive Decision Making offers skill building and support to people making decisions about treatment. In this workshop, we present two approaches to Shared and Supportive Decision Making through partnerships between psychiatry and psychiatric rehabilitation.

Forensic Peer Support: Persons with Mental Health Challenges and the Criminal Justice System Robert Rousseau, Metro Boston DMH, Wallis Adams, PhD Candidate, Northeastern University

This workshop will involve participants in the what, how, where and why of Forensic Peer Support. It will examine how FPS's can provide advocacy and liaison support when persons with mental health/addiction recovery challenges become involved with the justice system.

15th Annual MassPRA Conference

The Foundation of Psychiatric Rehabilitation”

Wednesday October 25, 2017
Pre-registration not required

SESSION TWO WORKSHOPS
1:15pm - 2:45pm

Who’s Teaching Whom: Flipping The Classroom *Martha Barbone, Noelle Pollett, Rita Cronise*

All members (facilitators and participants) contribute to the content of the group, and the participants become more empowered and confident to share their own wisdom in the circle and back on the job.

The Role of Self-Determination in Mental Health Recovery *Cynthia Piltch, Boston University Center for Psychiatric Rehabilitation*

This workshop will enable participants to identify the key factors that support the development of self-determination and explore its connection to supporting relationship development and mental health recovery. The workshop will present a model for conceptualizing self-determination, a case example of applying that model and opportunity for participant to apply the model to their own recovery journeys.

Developing the Conversation around Mental Health in the Classroom *Jake Cavanaugh, The NAN Project, Suicide Prevention Project, Ellen Dalton, The NAN Project, Rachely Ramos, The NAN Project, Kimberly Bisset, Ed.D, Radiate Career Services*

The workshop will detail how our organization has reached out to schools and communities to open up the conversation around mental health using a Peer-to-Peer, school-based model.

Implementing a Shared Decision Making Educational Module *Shari Harding, Regis College and Alternatives Unlimited, Inc., Tamara Melville, Regis College*

This presentation will describe the development and implementation of a Shared Decision Making educational module for psychiatric nurse practitioner students. Implications for future work including opportunities for psychiatric rehabilitation staff, peer support specialists, and people in recovery will be discussed.

Using Fiction to Illustrate Issues in Psychiatric Rehabilitation *Bob Schueler*

Presenter will read from his novel and manuscript in progress to generate discussion of issues and dilemmas in PsyR and the use of fiction as an anti-stigma and anti-discrimination strategy

Forging Career Services for Young Adults *Marsha Ellison, Transitions Research and Training Center, Rachel Stone, Transitions Research and Training Center, Michelle Mullen, Rutgers University*

HYPE is a manualized intervention aimed at assisting supported employment programs in integrating supported education interventions into services to assist young people in school and the workforce.
